

VT- JBC3015A

Stainless Steel Explosion Proof Control Box

Features

- 304 Stainless steel (316, 316L Optional)
- IIC Explosion proof
- Explosion-proof, anti-corrosion, waterproof
- 8*G3/4" interface

VT-JBC3015A Stainless Steel Explosion Proof Control Box

304 Stainless steel
IIC Explosion proof
Explosion-proof, anti-corrosion, waterproof
8pcs M25*1.5 output (original G3/4)

Product	Ex-Level	ATEX II 2G Ex d IIC T6 Gb II 2D Ex tb IIIC IP68 T80°C Db
	Ingress Protection level	IP66
Other specifications	Temperature range	-40°C ~ 60°C
	Relative humidity	≤ 95% (+25°C)
	Atmospheric pressure	80kpa ~ 106 kpa
	Thermostat System	Optional
	Supply voltage	DC12V/24V /AC220V
	Suitable averment	Apply to explosive gas and combustible dust environment
	Material	304 stainless steel
	External dimensions	300mm*300mm*150mm
	internal and external size can OEM	
	Inlet hole specifications	8pcs M25*1.5 output (original G3/4)
